

Clark cell based dissolved Oxygen Sensor for water quality measurements

The Hydrolab Dissolved Oxygen sensor is based on the EPA-approved Clark Cell design, and has been trusted for over 30 years.

| Dissolved Oxygen (Clark Cell) | |
|-------------------------------|--|
| Range | 0 ... 50 mg/L |
| Accuracy | ± 0.2 mg/L for 20mg/L or less ± 0.6 mg/L for over 20 mg/L |
| Resolution | 0.01 mg/L |
