

Since 2002, Hach has established itself as the premier provider of luminescent dissolved oxygen (LDO) technology. Only Hydrolab multiparameter sondes feature Hach LDO technology - designed, manufactured, and supported by Hach in Loveland, Colorado. Now in its second generation, the Hach LDO sensor for Hydrolab sondes is better than ever.

| Hach LDO Sensor | $0 \ldots 60^{*} \mathrm{mg} / \mathrm{L},,^{*}$ Exceeds Maximum Natural Concentrations |
| :--- | :--- |
| Range | $\pm 0.1 \mathrm{mg} / \mathrm{L}$ at $<8 \mathrm{mg} / \mathrm{L}$ |
| Accuracy | $\pm 0.2 \mathrm{mg} / \mathrm{L}$ at $>8 \mathrm{mg} / \mathrm{L}$ |
|  | $\pm 10 \%$ reading $>20 \mathrm{mg} / \mathrm{L}$ |
| Resolution | $0.01 \mathrm{mg} / \mathrm{L}$ |
